MBUPSA EXECUTIVE 2024-2025 WORK PLAN.

INTRODUCTION

Mbupsa is a non-profit, non-religious and non-political organization uniting all undergraduate and postgraduate pharmacy students in the pharmacy department in Mbarara University of science and technology.

The new committee assumed office on 25 October 2024 and the term of office runs up to the end of first semester of the academic year 2025-2026 and to achieve its set objectives, a joint work plan of all departments is necessary. The theme of the year is

”FOSTERING A MULTIDISPLINARY APPROACH TO DEVELOP WELL-ROUNDED FUTURE PROFESSIONALS”

We have organized a series of both student lead and mentor led activities which include exhibitions, Annual general meetings, Awareness campaigns , Dinners and many more as detailed below.

1. Product Development Boot camp.

This is a two days programme that is aimed at fostering innovations among pharmacy students. Pharmacy and pharmaceutical science students have inadequate knowledge about product development procedures which is mainly attributed to limited exposure and inadequate knowledge in that particular discipline. This programme will therefore impact students with the necessary skills to ideate and develop their own products which, under proper guidance of different stake holders will undergo registration with the different regulatory bodies and can be exhibited in the pharmacy week.

Event details.

Date :21/02/2025 to 22/02/2025

Time :9pm to 5pm

Key stake holders:

- Sudents
- Mentors
- Sponsors

The proposed product development bootcamp thus aims at addressing the challenges faced by pharmacy students in developing medicinal products by providing comprehensive training , hands on experience and , mentorship which will empower students to create innovative , effective and marketable products .

2.ANNUAL PHARMACEUTICAL EXHIBITION AND MEDICAL CAMP.

This year's pharmacy exhibition is scheduled for 11th and 12th March and will entail various activities which will involve both students, Alumni, Sponsors and community members who will engage in various activities. This year's pharmaceutical exhibition will also include a medical camp which will be organised in collaboration with Mbarara Municipal health centre IV as a way of giving back to the community. We are also doing this in collaboration with other medical disciplines such as medicine and surgery students, medical laboratory science students, Nursing students and clinical pharmacists.

3.ANNUAL GENERAL MEETING AND CONFERENCE.

The annual pharmacy meeting brings together students, members of department and sponsors to discuss issues pertaining the noble profession. This is aimed at mentoring pharmacy students in career development where they explore the diversity of the profession. This not only improves their awareness about the profession but also shapes their perception concerning future specialisation.

4.CHARITY CAR WASH AND LAUNCH OF CHAPATI STAND.

The charity car wash is aimed at fundraising for tuition for pharmacy students who face financial constraints. It has been observed over the years that some students fail to clear their tuition in the stipulated time and this hinders them from sitting for exams. As an association we always carry out the car wash to raise tuition. In addition, we have invested in setting up a self sustaining project that will always raise money for the association, we are starting a chapati stand in taso village and this will boost association income.

5.HEALTH RUN.

The health run will be the first one of a kind organised by the association and the major aim is to create awareness about people's health and mainly combating different illnesses that are sweeping off people's lives across the ground. Our main focus is creating awareness about Tuberculosis(TB).
